ECS Configuration Change Request

CCR No. 97-0215	**Logged Date** 2/21/97	**Rev.** ---	**Request Type** CCR

Priority Routine [X] Urgent [ ] Emergency [ ]	**Affected Release** B	**Change Class** II

Title Addition of PCs to Ingest DAAC baseline

Documents Affected DAAC documentation	**Source Nos** (RID, NCR, etc.) **or Tech Reference** N/A

RTM Changed [ ]   **Start New Baseline** [ ]

Problem

Release B Ingest is providing a PC/PC-COTS solution to "adding a new data type/external user" to the Ingest system.   The solution requires the following Hardware/Software be added to the Ingest hardware/software baseline: 1) PC (486 or higher), 2)MSAccess Version 7.0, 3) Intersolv ODBC driver.

Proposed Solution

Purchase and install 2 PCs (primary and backup) at each DAAC. Purchase and install MSAccess 7.0 on the purchased PCs (note: 2.0 is currently installed on PCs in ECS, version 2.0 will not work with Intersolv's ODBC driver). Purchase and install Intersolv's Data Direct ODBC Driver Pack for Window 95 (3.5" floppy media).
